

Superior Golf Experience

“New age activities offering broad appeal”

We plan to invest in a range of new amenities to create a golf experience that will appeal to all, regardless of age or competitive interest. From professional elites and dedicated enthusiasts, through to weekend warriors and young starters, everyone is welcomed and encouraged.

The new facilities will include:

- A two-tiered fully automated driving range that will provide a day-night facility for all golfers adjacent to the Community Entertainment Hub
- Returning the Championship Course 18-hole Lakes Course to its former glory as the most premium and challenging golf course
- Converting 9-holes of the Ellenbrook course into a 9-hole family friendly short course
- Converting the remaining Ellenbrook holes into a recreation trail complete with playgrounds and new housing choices

Investment upgrades to the golf facilities and reputation of the course will ensure the Championship Course can return.

Question

What is required to help make the Superior Golfing Experiences successful?
